

# REVENUE & RESOURCES

## EVALUATING COLLEGE PLANNING DOCUMENTS

- **The Plans:** Facilities, Technology, Sustainability
- **Proposed Process:** R&R assumes primary responsibility, but would add additional participants based on appropriate and related positions.
- **Evaluation:** R&R will collaborate with “experts” to ensure alignment with college planning goals.
- **Logistics:** Plan evaluation meetings would most likely occur outside monthly R&R meetings.
- **Resource requests related to the Plans:** Would follow existing process for facilities and technology; R&R can invite requestors (for facilities, technology, sustainability) to present at a monthly meeting and make a recommendation that could inform the existing process.
- **Recommendations:** R&R would forward any plan recommendations to Advisory Council, Community & Communication, Equity & Education.
