

## Program Creation Process Sign-Off

Program Title: Associate in Science in Plumbing and Pipefitting

Program Units: 90 Units

Division: Apprenticeship Proposing Faculty name(s): Robbie Kunkel

Type of Program: \_\_\_\_\_ Transfer or  Workforce

Type of Award:

Non-transcriptable certificate

Certificate of Achievement

AA/AS Degree

**FOOTHILL COLLEGE**  
**Credit Program Narrative**  
**Associate in Science in Plumbing and Pipefitting**

**Item 1. Program Goals and Objectives**

The goals and objectives of the Associate in Science degree in Plumbing and Pipefitting align with the primary mission of California community colleges, as established in Ed. Code § 66010.4, which mandate that community colleges provide vocational instruction to students and advance California's economic growth and global competitiveness through education and training that contribute to workforce development. The Associate in Science degree in Plumbing and Pipefitting aligns with Foothill College's Institutional Outcomes and directly supports the Computation and the Creative, Critical, and Analytical Thinking rubrics.

The Associate in Science degree in Plumbing and Pipefitting at Foothill College serves to align apprenticeship programs with college and university academic tracks as directed by the federal and state government. Foothill College, functioning as the Local Education Agency for the Division of Apprenticeship Standards for the state of California, is collaborating with the Joint Apprenticeship Training Center of San Mateo County, UA Local #467, to offer this degree.

Foothill College is responding to local demand for Pipe Trades workers in plumbing by establishing an Associate in Science degree in Plumbing and Pipefitting in partnership with the Joint Apprenticeship Training Center (JATC) of San Mateo County, UA Local #467, located in Burlingame, California. Graduates are recognized as journeypersons within the Pipe Trades industry. Graduates of the Associate in Science in Plumbing and Pipefitting will be employable as: Foreman, General Foreman, Superintendent, Project Manager, Estimator, Detailer, Building Trades Inspector, Building Trades Instructor, and Union Business Agent/ Business Manager in the pipe trades. Students will increase their marketability and employment opportunities.

The program learning outcomes for the Associate in Science degree in Plumbing and Pipefitting are:

- In compliance with applicable standards and codes, students will demonstrate ability to configure, install, and remove plumbing systems, including systems for various industrial fluids, public or private water systems, and temperature or material-sensitive gas piping systems.
- In compliance with applicable standards and codes, students will demonstrate ability to repair and maintain, extend, and/or substantially alter plumbing systems, which include drain waste and ventilation systems, systems for various industrial fluids, public or private water systems, and gas piping systems.

Students complete the associate degree through enrollment in the Plumbing and Pipefitting apprenticeship program at the JATC of San Mateo County and through enrollment in the General Education requirements at Foothill College. To apply to the JATC apprenticeship program, potential students must be at least 18 years of age, be able to perform the work of the trade, present verification of high school completion, either through a high school diploma or GED or High School Proficiency certificate, demonstrate the ability to read, write, and speak English, and establish passing grades, at a C grade or better, in two high-school-level mathematics courses by presenting a high school or college transcript. The selection, employment and training of apprentices by the JATC of San Mateo County is without discrimination according to race, color, national or ethnic origin, age, gender, religion, sexual orientation or marital status. Students are admitted into the apprenticeship program based on obtaining a passing (70%) score on a mathematics entrance exam, which measures the student's ability in math and mechanical reasoning. Students who pass the mathematics entrance exam will be given an oral interview. Students that progress past the interview will be given a list of signatory contractors they may contact for sponsorship into the apprenticeship program. Students will be ranked on a waiting list according to written test and interview scores. Admission to apprenticeship classes is limited to apprentices registered with the California Division of Apprenticeships Standards. This limitation is authorized by the California Labor Code, Section § 3074.3.

Aside from Foothill College's ordinary enrollment fees, there are no additional costs to the student to complete the Associate in Science degree in Plumbing and Pipefitting.

### **Item 2. Catalog Description**

The Associate in Science degree in Plumbing and Pipefitting program is conducted in partnership with the Joint Apprenticeship Training Center of the UA Local #467 apprenticeship program of San Mateo County. The apprenticeship program is five years in duration, requiring a minimum of 10,000 hours of on-the-job training and 1,340 hours of classroom instruction. After 5 years of classroom instruction and paid work experience, students are recognized as journeypersons within the Pipe Trades industry, working to support the infrastructure and to protect the health and safety of the community by delivering sophisticated piping systems to the end user. A graduate will be prepared to work as a Foreman, General Foreman, Superintendent, Project Manager, Estimator, Detailer, Building Trades Inspector, Building Trades Instructor, and Union Business Agent/ Business Manager in bio-tech research and manufacturing facilities, airports, shopping centers, hotels, resorts, and office and educational buildings, and water and waste-treatment facilities. Labor Market Analysis indicates increased employment opportunities in the Pipe Trades through 2020. Students earning an associate degree increase their marketability and employment opportunities. Enrollment in apprenticeship courses is limited to apprentices registered with the California Division of Apprenticeships Standards, according to the California Labor Code, Section § 3074.3.

The apprenticeship program, which includes coursework, lab work and on-the-job training, involves learning about the assessment, installation, maintenance, alteration, and repair of different types of pipe systems, and includes effective and safe tool use, material applications, related mathematics & science and storage. Students will learn how to read blueprints, apply layout methods and installations, and estimate and repair both supply and waste water systems. The Associate in Science degree in Plumbing and Pipefitting builds on the Certificate of Achievement in Plumbing and Pipefitting by adding requirements for general education courses and electives offered at Foothill College. The General Education option at Foothill College includes courses to establish proficiency in English and math and to survey other academic areas such as history and humanities. The Associate in Science degree in Plumbing and Pipefitting is not a transfer program. Foothill College apprenticeship students who intend to transfer must consult with a program advisor or counselor to ensure that the requirements for transfer to the baccalaureate institutions of their choice are met.

Students are admitted into the apprenticeship program based on obtaining a passing (70%) score on a mathematics entrance exam, which measures the student's ability in math and mechanical reasoning. Students who pass the mathematics entrance exam will be given an interview, and those students progressing past the interview will be given a list of signatory contractors they may contact for sponsorship into the apprenticeship program. Students will be ranked on a waiting list according to written test and interview scores.

### **Item 3. Program Requirements**

Requirements	Course #	Name	Units	CSU-GE	IGETC	Sequence
Core Courses (42.5 Quarter Units)	APPT 161	Safety/Tools/ Heritage/Service	4.0			Yr 1, Fall
	APPT 162	Mathematics/ Science for the Plumbing Trades	4.5			Yr 1, Winter
	APPT 163	Code/Water Supply Systems	4.0			Yr 2, Fall
	APPT 164	Drawing I for the Plumbing Trades	4.5			Yr 2, Winter
	APPT 165	Drawing II for the Plumbing Trades	4.0			Yr 3, Fall
	APPT 166	Welding/ Oxy-Acetylene	4.5			Yr 3, Winter

	APPT 167	Training Steam System/ Rigging/Pipe Fitting and Service	4.0				Yr 4, Fall
	APPT 168	Medical Gas/ Hydronics	4.5				Yr 4, Winter
	APPT 169	Advanced Drawing/Layout for the Plumbing Trades	4.0				Yr 5, Fall
	APPT 170	Code II/Junior Mechanics Review & Exam	4.5				Yr 5, Winter

<b>Required Major Total</b>	<b>42.5 units</b>
Completion of Foothill GE pattern	35 units
Transferable electives (as needed to reach 60 units)	12.5 units
<b>TOTAL UNITS</b>	<b>90 units</b>

**Proposed Sequence: (to include general education courses)**

Year 1, Fall = 10 units

Year 1, Winter = 10 units

Year 2, Fall = 10 units

Year 2, Winter = 10 units

Year 3, Fall = 10 units

Year 3, Winter = 10 units

Year 4, Fall = 10 units

Year 4, Winter = 10 units

Year 5, Fall = 5.0 units

Year 5, Winter = 5.0 units

**TOTAL UNITS: 90 units**

**Item 4. Master Planning**

The Associate in Science degree in Plumbing and Pipefitting aligns with the planned goals of the College and the District because the program serves the regional area in support of workforce development and economic growth. The Associate in Science degree in Plumbing and Pipefitting is a new degree, specifically offered in partnership between Foothill College as Local Education Agency and the JATC of San Mateo, UA Local #467, monitored by the Division of Apprenticeship Standards, and does not duplicate an already-existing program within the Foothill-De Anza district or the surrounding colleges. The courses and programs offered by the Joint Apprenticeship Training Center of the Plumbers and Steamfitters UA Local #467 are unique in scope and differ substantially from other Joint Apprenticeship Training Centers serviced by Foothill College in its role as Local Education Agency for the Division of Apprenticeship Standards.

The only competition to the Associate of Science degree in Plumbing and Pipefitting program at Foothill College occurs from one out-of-state college that offers on-line degrees. JATC apprentices and recently-graduated journeymen are taking on-line courses at Washtenaw Community College at considerably higher tuition, \$202/credit hour, and incurring other expenses in order to earn an Associate in Applied Science degree in Industrial Journeyman. Offering an Associate in Science degree in Plumbing and Pipefitting at Foothill College would well serve the college's primary stakeholders: the students, community partners, and the community at-large.

Local references in support of the Associate in Science degree in Plumbing and Pipefitting include all Advisory Committee representatives from the JATC of San Mateo County (Appendix B) who strongly support the partnership between the JATC and Foothill College due to their understanding of local

economic workforce needs and their ongoing contact with apprenticeship students, which provides grounded understanding of their students' short-term and long-term educational goals.

**Item 5. Enrollment and Completer Projections**

Course #	Course Title	Year 1		Year 2	
		Annual Sections	Annual Enrollment	Annual Sections	Annual Enrollment
APPT 161	Safety/Tools/Heritage/Service	1	15	1	17
APPT 162	Mathematics/Science for the Plumbing Trades	1	15	1	17
APPT 163	Code/Water Supply Systems	1	42	1	17
APPT 164	Drawing I for the Plumbing Trades	1	42	1	17
APPT 165	Drawing II for the Plumbing Trades	1	27	1	39
APPT 166	Welding/Oxy-Acetylene Training	1	27	1	39
APPT 167	Steam System/Rigging/Pipe Fitting and Service	1	19	1	27
APPT 168	Medical Gas/Hydraulics	1	19	1	27
APPT 169	Advanced Drawing/Layout for the Plumbing Trades	1	22	1	19
APPT 170	Code II/Junior Mechanics Review & Exam	1	22	1	19

**Item 6. Place of Program in Curriculum/Similar Programs**

The Associate in Science degree in Plumbing and Pipefitting does not adversely affect existing programs at Foothill College in terms of competition for students or courses, nor does it take material resources away from other existing programs at the College. The associate degree creates pathways for students from Pre-Apprenticeship and Apprenticeship through an associate's degree and potential transfer to a four-year institution. Thus, the students can easily move from the Certificate of Achievement in Plumbing and Pipefitting to the Associate in Science degree in Plumbing and Pipefitting. This streamlined approach facilitates the students' ability to readily complete their educational goals and to earn family-supporting wages.

**Item 7. Similar Programs at Other Colleges in Service Area**

There are no similar college programs in existence in the college service area of Foothill College that serve the specific needs of the technology industry; the partnership with the UA Local #467 JATC of San Mateo County is unique in the college service area.

## JOINT APPRENTICESHIP & TRAINING COMMITTEE MINUTES

October 23, 2015

The Joint Apprenticeship and Training Committee of the Plumbing, Pipe Fitting and Refrigeration Air Conditioning Industry of San Mateo County met at the Training Center, 1519 Rollins Road, Burlingame.

### **ROLL CALL:**

The meeting was called to order at 5:00 p.m. by **Chairman Mike Dougherty** with the following Trustees and Advisors in attendance:

<u>Labor:</u>	<u>Management:</u>	<u>Advisors:</u>
M. Swanson	D. Taylor	B. Kay – D.O.T.
C. Collins	P. Carlevaris	G. Knight - DAS
M. Burri	B. Whitney	
M. Dougherty	R. Monaghan	
D. Black	R. Bellanti	
M. Nelson		

### **MINUTES OF THE PREVIOUS MEETING:**

It was M/S/P to approve the minutes of the regular monthly JATC meeting of **September 25, 2015**, as presented.

### **FINANCIAL REPORT:**

Treasurer Mark Burri presented the financial report for **August 2015** and upon review, it was M/S/P to accept the financial reports for **September 2015**.

### **APPRENTICES CITED BEFORE J.A.T.C.**

A. **Marino Sandoval** – Apprenticeship agreement cancelled for failure to comply with the rules and regulations of the JATC.

### **COMMUNICATIONS:**

**Bob Kay** reported on the following:

- A. Foothill College Financial Summary – July and August 2015
- B. Thank you letter from Peninsula High School for participating in their Career Day.

### **REPORT OF LOCAL UNION 467:**

**Mark Burri** reported there is 8% unemployment for Local 467 with very few apprentices out of work. There is continued improvement in employment opportunities.

### **REPORT OF DIVISION OF APPRENTICESHIP STANDARDS:**

**Gary Knight** reported that there are 109 active apprentices currently in Local 467. The DAS is continually participating in outreach, job fairs, and doing local high school presentations with an added message of the value of Apprenticeships! Also, a reminder of the 28<sup>th</sup> Biennial California Conference on Apprenticeship, July 30 – August 4, 2015.

### **REPORT OF SUPERVISOR OF INSTRUCTION:**

**Don Black** reported the Spring Semester has really been quick. The last day of classes is June 30, 2015.

**REPORT OF DIRECTOR OF TRAINING:**

Director of Training Bob Kay reported on the following:

- A. Bob let the committee know of the work being done with Foothill College to get State approved Certificates of Achievements and A/S Degrees for Our Plumbing/Pipe-Fitting and HVAC Apprenticeship Programs. **A motion to approve an agreement with Foothill College was made. It was M/S/P to approve the agreement with Foothill College.**
- B. Bob also presented a letter for the committee's review that will be sent to the State Chancellor's Office.
- C. A proposal to purchase new Window's 7 computers for Bob and Marie was reviewed. It was M/S/P to purchase the new computers.
- D. Reminder of the CAC meetings in San Diego next week.
- E. Bob reported that the entrance exam is complete and went very well. 73 passed and 65 Failed. Interviews will be held August 17<sup>th</sup>.

**OLD BUSINESS:**

None

**NEW BUSINESS:**

- A. Next JATC Meeting will be held November 19, 2015 at 5:00pm

**ACTION ITEMS:**

None

**ADJOURNMENT:**

With no further business, it was M/S/P to adjourn.

Respectfully submitted,

*Robert G. Kay*

## JOINT APPRENTICESHIP & TRAINING COMMITTEE PLUMBING, PIPE FITTING & REFRIGERATION INDUSTRY OF SAN MATEO COUNTY

1519 ROLLINS ROAD • BURLINGAME, CA 94010-2305

(650) 692-0442 • FAX: (650) 692-7620 • [www.ualocal467.org](http://www.ualocal467.org)

ROBERT KAY  
DIRECTOR OF TRAINING

August 11, 2015

Chancellor's Office  
California Community College  
1102 Q Street  
Sacramento, CA 95811-6539

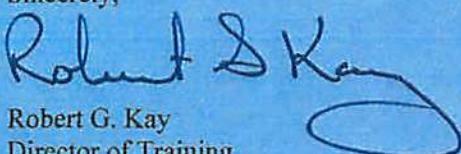

Dear Chancellor's Office:

Please be advised that an apprentice that earns an Associate of Science degree in the Pipe Trades industry and can perform at a journey person level and achieves a high standing within Local 467, will have a greater opportunity to stay with his/her current employer and will be in demand to work for any of the over two hundred and fifty employers signatory to UA Local 467. Thus a survey is not necessary.

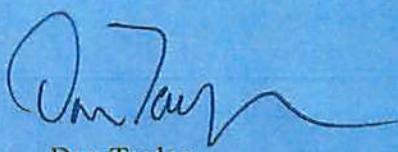

When the apprenticeship students can earn a certificate and degree at Foothill College, we believe the response will be very high and that all students will pursue the Certificate of Achievement and many others will pursue the Associate's degree in their area of expertise. Earning a Certificate of Achievement and an Associate's degree is highly regarded in the Plumbing, Pipe Fitting & Refrigeration Industry of San Mateo County as well as UA Local 467 and leads to increased earnings and career advancement for journeymen.

Based on the long-standing interest of the journeymen students to pursue earning college certificates and degrees, our Joint Apprenticeship Training Committee {i.e. Board of Directors} unanimously voted to recommend/endorse Foothill College's offering these certificates and degrees.

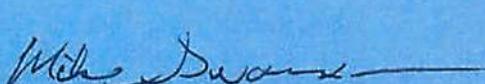

Sincerely,

  
Robert G. Kay
