

Minutes for the BSSCC 1/14/15

Attending: Kurt Hueg (dean), Allison Lenkeit Meezan, Bill Ziegenhorn, Steve Batham, Lisa Drake, Mimi Will, Konnilyn Feig

1. The new course proposals for the 5 pipe trades classes (APPT 195, 195, 197, 198, 199) were passed. The committee admitted to knowing nothing about pipe trades, and assume that the course authors know what they are doing because pipes and plumbing are very important. No representatives from APPT were present.
2. The HIST and WMN departments presented their course summary spreadsheets. The committee agreed that overall the course offerings for the departments are complete. All courses (except where noted as a new course) are offered on a regular basis.
