<u>Item</u>	<u>Discussion</u>
1. Minutes: February 2, 2010	Correction in #4. Francisco asked about the credit given for courses that come from other colleges. Is there going to be some way to guarantee that each petition should have gone to a faculty member. She was assured that every petition goes to review by a faculty member. M/S/C (Ragey, Day)
2. Consent Calendar: Stand Alone Course Applications	Speaker: Carolyn Holcroft APEL 129 A & B will be pulled until Woods is here to answer some questions. The remaining Consent Calendar was approved M/S/C (Sauter, Schultz) .
3. GE Application form-Humanities	Speaker: Carolyn Holcroft Follow-up regarding the Humanities form. Revision was made and is attached. Cross-listed courses may be put on the same application.
4. SOSC 75	Speaker: Carolyn Holcroft This course was originally developed to answer to a Title 5 requirement from the State that required any student tutoring to have certain training. At the time the course was developed, it was very difficult to find a faculty member to take responsibility for the course. It happened to fall into BSS due to the fact that that division could handle a course that had very low WSCH. Could there be a department created to house this course?
5. Other	Day informed us that The State has signed an MOU with Kaplan University giving them permission to teach some comparable courses for FH students unable to complete some of their courses with FH.
